Operational Plan 2019-20 Monitoring Report

Scottish Information Commissioner

Introduction

Introduction

This document sets out the Scottish Information Commissioner's operational plan for the period from 1 April 2019 to 31 March 2020. The plan explains how we will realise the Commissioner's vision and strategic aims, and provides a tool for on-going monitoring of outcomes and management of resources, financial and human.

Vision

Freedom of Information will add demonstrable value to public services and contribute positively to the transparency and accountability of public functions in Scotland

Strategic aims

To realise this vision, the Commissioner's office will:

- (1) **Support** the on-going development of Scottish public sector culture and practice where the sharing and disclosing information is routine, and which actively serves openness, transparency and the public interest
- (2) **Help** people to be familiar with their rights to access information and exercise them knowledgeably and responsibly
- (3) **Enable and support** Scottish public authorities to develop and maintain high standards of FOI policy and practice. We will do this through a combination of regulation, advice and assistance, and appropriate collaboration. This includes promoting embedding FOI in good communication, excellent customer service, creation and management of records and in supporting efficient, equitable and accountable delivery of statutory functions
- (4) **Contribute positively** to Scotland being respected as a world-leader in openness, transparency, and access to information law, policy and practice. Including supporting the development of Scottish access to information law to ensure it remains fit for purpose
- (5) **Be recognised** as an organisation of accessible experts, that is run efficiently, governed effectively and leads by example in the delivery of its statutory functions. We will ensure that delivery of our functions meets and keeps pace with recognised standards and national public service improvements, and is delivered openly and transparently.

Structure of the operational plan

This plan is laid out as a programme of actions listed under types of operational activity, with cross references to which strategic aim(s) it supports. The actions listed are business as usual (BAU) and one-off projects. This a working document which forms the basis of on-going monitoring and assessment and may be updated.

In general, BAU will be managed and monitored in line with set targets, performance indicators, established reporting structures and approved policy.

Projects will be managed according to project management principles and practice. Each project is approved by the Senior Management Team.

Monitoring and reporting

Progress against the plan will be reviewed every two months by the Senior Management Team and an update of progress will be published following this review. Achievement and output against individual line items will be also assessed and reported in line with the organisational targets and indicators and measures set out in our Performance and Quality Framework.

Resources

The Commissioner's budget for 2019-20 is £1,673,000:

- Total staff costs: £1,312,000
- Total revenue costs: £1,639,000
- Capital expenditure: £34,000

KEY

BAU: Business as Usual

DHOE: Deputy Head of Enforcement

HOCS: Head of Corporate Services

HOE: Head of Enforcement

HOPI: Head of Policy and Information

Priority: Relative priority - Statutory, High, Medium, Low

SIC: Scottish Information Commissioner

SMT: Senior Management Team
