### Case study 1 - Email

From [jsmith@horizon.net](mailto:jsmith@horizon.net)

I'd like to know about psychology services for young people at your unit. In 2015-16, how many of the following types of sessions were delivered?

- one-to-one sessions for individual young people
- small groups

J Smith

### Case study 2- Note given to head teacher

*Sophie tells me she is getting breathing problems at night. It only happens when she's staying in the unit (not when she comes home). It's the new floor polish the cleaner is using - typical you would buy cheap stuff. What's in that floor polish? Sophie says the cleaner is getting headaches too. I told the unit manager but he didn't want to know. I'm sick of him and his attitude.*

*Mrs Black*

(mother of Sophie Black)

### Case study 3 - Letter

From: Dr Robert Martin, on behalf of the local community council (address supplied)

The community council has asked me to seek your views on the proposed development of land adjoining the unit. If planning consent were sought would you be likely to object? Please treat this as a freedom of information request,
