

Is this an information request?

Case study 1 - Email

From jsmith@horizon.net

I'd like to know about rehabilitation opportunities for offenders at your prison. In 2015-16, how many of the following types of sessions were delivered?

- one-to-one sessions for individual offenders
- small groups

J Smith

Case study 2- Note given to prison director

John tells me he is getting breathing problems especially at night. He's never had this problem before. It's the new floor polish the cleaners are using - typical you would buy cheap stuff. What's in that floor polish? John says the cleaners are getting headaches too. I told a prison officer but he didn't want to know. I'm sick of him and his attitude.

Mrs Black

(mother of John Black)

Case study 3 - Letter

From: Dr Robert Martin, on behalf of the local community council (address supplied)

The community council has asked me to seek your views on the proposed development of land adjoining the prison. If planning consent were sought would you be likely to object? Please treat this as a freedom of information request,
