# Operational Plan 2018-19

**Scottish Information Commissioner** 

#### Introduction

This document sets out the Scottish Information Commissioner's operational plan for the period from 1 April 2018 to 31 March 2019. The plan explains how we will realise the Commissioner's vision and strategic aims, and provides a tool for on-going monitoring of outcomes and management of resources, financial and human.

#### Vision

Freedom of Information will add demonstrable value to public services and contribute positively to the transparency and accountability of public functions in Scotland

#### Strategic aims

To realise this vison

#### The Commissioner's office will:

- support the on-going development of Scottish public sector culture and practice where the sharing and disclosing information is routine, and which actively serves openness, transparency and the public interest
- 2. help people to be familiar with their rights to access information and exercise them knowledgeably and responsibly
- 3. enable and support Scottish public authorities to develop and maintain high standards of FOI policy and practice. We will do this through a combination of regulation, advice and assistance, and appropriate collaboration. This includes promoting and embedding FOI in good communication, excellent customer service, creation and management of records and in supporting efficient, equitable and accountable delivery of statutory functions
- contribute positively to Scotland being respected as a world-leader in openness, transparency, and access to information law, policy and practice. Including supporting the development of Scottish access to information law to ensure it remains fit for purpose
- 5. be recognised as an organisation of accessible experts, that is run efficiently, governed effectively and leads by example in the delivery of its statutory functions. We will ensure that delivery of our functions meets and keeps pace with recognised standards and national public service improvements, and is delivered openly and transparently.

### Structure of the operational plan

The plan is laid out as a programme of actions listed under types of operational activity, with cross references to which strategic aim(s) it supports. The actions listed are business as usual (BAU) and one-off projects. This a working document which forms the basis of on-going monitoring and assessment.

In general, BAU will be managed and monitored in line with set targets, performance indicators, established reporting structures and approved policy.

Projects will be managed according to project management principles and practice. Each project is scoped, approved by the Senior Management Team and reported on monthly for its duration.

#### Monitoring and reporting

Progress against plan will be reviewed monthly using the Operational Plan Monitoring Report and an update of progress will be published quarterly.

Achievement and output against individual line items will be assessed and reported in line with the organisational targets and indicators and measures set out in our Performance and Quality Framework.

#### Resources

The Commissioner's budget for 2018-19 is:

Total staff costs	£1,245,593
Total revenue costs	£316,800
Capital expenditure	£3,500
Total	£1,565,893

At the time of putting in place this Operational Plan, the Scottish Government has been consulting on the extension of public authorities regulated under FOISA to include registered social landlords and related bodies. The draft Order indicates a commencement date in April 2019. It is estimated that the additional resource in the region of £140,000 will be required to ensure that the Commissioner is sufficiently resourced to be able undertake the regulation of the public authorities under the proposed designation.

At this stage, it should be noted that it is not possible to assess fully the monetary effect of the designation, as regards the required resources and capacity, however, preliminary calculations indicate the following:

- three additional members of staff will be required two Freedom of Information Officers (Grade 4) and one Administrative Assistant (Grade 2).
- additional resource will also be required for the validation of appeals. At present, there is
  one permanent Validation Officer (0.9 FTE) and a pilot of an additional full time Validation
  Officer is being undertaken, with the temporary member of staff due to take up their post in
  the next few weeks. However, as additional validation resource will be required if the
  designation is made, it is apt for this post to also be included within the estimated
  resources.
- there will be set up costs for each additional member of staff, for example, office equipment, IT equipment and licences this will be required for 3 members of staff.
- there will be a set up period to enable preparation work to be undertaken
- training will need to be provided to the newly designated public authorities

#### **Summary of activity**

The majority of activity in relation to regulation of FOI (investigations and publication schemes) is recorded as business as usual (BAU). Only the major activities are shown in this plan. Underpinning this is the day-today management of the organisation and its resources, which again is not listed in detail.

#### Functional areas are:

- Human resource management (HRMgt)
- Improving authority practice (IAP)
- Information and records management (IRM)
- Planning and reporting (PlanRep)

- Promotion and communications (PromCom)
- Quality assurance (QA)
- Regulation and enforcement (RegEnf)
- Resource management (ResMgt)

- Risk management (RiMgt)
- •
- Strategic Management (StrMgt)

The dates in the plan are as firm as they can be at the start of the year but may change in response to external factors or a change in priorities.

#### KEY:

**BAU**: Business as Usual

**DHOE**: Deputy Head of Enforcement

**HOCS**: Head of Corporate Services

**HOE**: Head of Enforcement

**HOPI**: Head of Policy and Information

**Priority**: Statutory, High, Medium, Low (relative)

SIC: Scottish Information Commissioner

**SMT**: Senior Management Team
